

**Village of Yellow Springs
Block Party
Application**

Date received: _____

Block parties are a great way to come together and build a stronger community to make our village a better place. When planning a block party, please be considerate of your neighbors and how the road closures may affect them. Please fill out this form and return to Samantha Stewart at ss Stewart@yellowsprings.gov, or at the John Bryan Community Center (100 Dayton Street). Forms need to be received at least 10 days before your block party is scheduled.

Village staff will drop off barricades for street closures on the corners of streets scheduled to be closed on their last scheduled day of work, and they will collect them on their next scheduled day of work. Block party planners are responsible for setting up dropped-off barricades, as well as removing the barricades from the street to be collected later.

The Village has a limited number of barricades, and therefore can only accommodate 5 or fewer block parties during the same weekend (depending on other events going on in the village). Your request for a block party may be denied if the Village cannot provide safety needs.
